FIFTY YEARS OF QUALITY
WOLFF'S PLUMBING GOODS

Wolff's Enameled Iron Lavatories

THIS CATALOGUE CONTAINS ILLUSTRATIONS AND PRICE-LISTS OF THE MOST COMPLETE LINE OF ENAMELED IRON LAVATORIES AND WASH SINKS EVER PRESENTED TO THE TRADE.

ALL THE LAVATORIES, ETC., SHOWN, TOGETHER WITH THE BRASS AND IRON FITTINGS, ARE OF OUR OWN MANUFACTURE.

OUR GUARANTEE LABEL IS PUT ON EVERY LAVATORY, GUARANTEEING THE HIGHEST STANDARD OF EXCELLENCE; IN PRICE THEY ARE NO HIGHER THAN THAT OFTEN CHARGED FOR INFERIOR GOODS.

FIFTY YEARS AGO OUR BUSINESS WAS STARTED. TO-DAY WE ARE THE LARGEST INDIVIDUAL MANUFACTURERS OF PLUMBING GOODS.

WE MANUFACTURE IN OUR FACTORIES EVERYTHING REQUIRED FOR USE IN HIGH GRADE PLUMBING WORK.

IN ORDER TO AVOID DELAYS AND MISTAKES GIVE THE CATALOGUE NAME AND NUMBER OF EACH ARTICLE WHEN SPECIFYING OR ORDERING.

Our Guarantee Label is put on all of our Lavatories.

F-6141—The "Carlisle"

COMBINATION SECTIONAL LAVATORY AND SINK IN CENTER.

F-6141 includes "*Wolff's*" Enameled Iron Combination Sectional Lavatory and Sink The "Carlisle", consisting of two Enameled Lavatories with Bowl and Large Patent Overflow Cast in One Piece and one Sink (in center), 12-inch High Separate Sectional Backs, six Nickel Plated Self Closing Gielow Faucets and three Sections Nickel Plated Brass Continuous Waste with 1½-inch Cast Brass Trap.

DIMENSIONS:

Size of Lavatories, 16 x 20 and 18 x 24 inches; Sinks, 16 x 20 and 18x24 inches; Bowls, 11 x 14 and 12 x 15 inches; Height of Back, 12 inches.

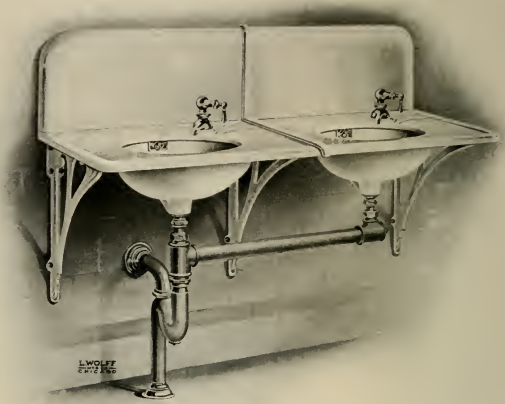
PRICES:	ENAMELED OUTSIDE	ENAMELED ALL OVER
16 x 20—Complete as described (three Sections), - -	$52.00	$59.50
Same, less Faucets and Trap, - - - -	30.00	37.50
18 x 24—Complete as described (three Sections), - -	58.00	65.50
Same, less Faucets and Trap, - - - -	36.00	43.50

If with Right or Left Hand End-Piece, add $2.00.

For other Faucets, Traps and Supplies see pages 123 to 146.

When ordering or specifying give Catalogue number and size.

Our Guarantee Label is put on all of our Lavatories



F-6144—The "Republic" (with lipped basins)

F-6144 The "Republic", consisting of Enameled Iron Roll-Edge Sectional Lavatory, with Lipped Basins, Cast in One Piece, with Patent Overflow, with Cast Brass Overflow Strainer, Chain and Waste Plug and Lipped Basin, with 10½-inch High Separate Backs, with two Special Low-down Fuller Faucets with Unions and Index Tops, Enameled Cast Iron Brackets, Galvanized Wrought Iron Connected Waste and Cast Brass Trap with Vents to Wall.

MADE IN TWO SIZES:

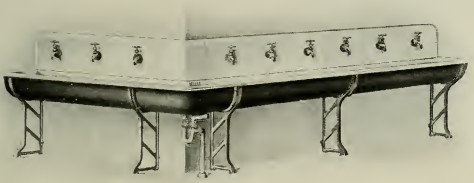
16 x 20 with 11 x 14 in. Basin, 10½-inch Back.
18 x 24 with 12 x 15 in. Basin, 10½-inch Back.

Prices upon application.

The above Lavatory is specially adapted for Government Work and can be furnished in Batteries of any number of basins. The Lavatories as shown are enameled Slabs and painted exterior, although we can furnish enameled all over, if desired. The Brackets can be furnished galvanized iron or enameled all over. We would suggest for a first-class sanitary fixture that the Lavatories be enameled all over and Brackets be enameled, the Trap should be Cast Brass.

A special feature of this Lavatory is the projection of the slab over the bowl, forming an overhanging lip, thus preventing the water from being splashed over sides.

When ordering or specifying give Catalogue number and size.



F-6146—(FOR OUTSIDE CORNER)

F-6146 includes three Straight 5 foot Sections and one Outside Corner Section "*Wolff's*" Enameled Iron Sectional Wash Sink with Cast Iron Supports, Roll-Edge Separate High Back, Soap Cups, Nickel Plated Waste Plug, Cast Brass Trap to Floor with Vent and nine Nickel Plated Extra Pattern Compression Faucets.

DIMENSIONS:

Width of Sink, Front to Back, 18 inches; Width Inside, 14 inches; Depth at Outlet, 8½ inches; Height of Back, 12 inches; Depth of Back, 2¼ inches.

Dimensions of Sink as shown:—12 feet from outside corner to right-hand end, and 7 feet from outside corner to left-hand end.

This style of Wash Sink is especially adapted for use in factories, barracks, public institutions, etc.

When ordering or specifying give Catalogue number and size.

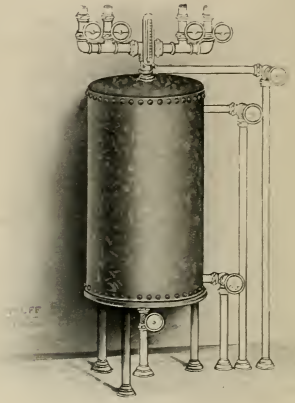
Wolff's Galvanized Mixing Chambers.



F-6182

"*Wolff*'s" Galvanized Iron Mixing Chamber for mixing and supplying Hot and Cold Water; an arrangement which can be used to advantage with Sectional Wash Sinks and Sectional Lavatories when only one Supply Pipe is used (see F-6147-48 and F-6149), and other combinations shown in this catalogue.

The Engineer or Janitor can adjust the Hot and Cold Water Supply Valves so that any desired temperature may be secured and maintained during the time that the Wash Sinks are being used. The temperature is indicated by a thermometer placed at the top of the tank, as shown in the illustration.

We furnish the Galvanized Mixing Chamber with Thermometer and Supports as shown; the valves and piping we do not furnish, this work usually being done by the Plumber to suit requirements. Mixing Chambers can also be furnished so they can be placed horizontally, should that be more suitable.

When ordering, in order to avoid delay and expense, a sketch should be sent showing exact location and size of all openings required except the Hot and Cold Inlets, which are provided for, and state if to be used vertically, as shown above, or horizontally.

Regular sizes and dimensions are as follows:

24 Gallon	12 in. Diameter x 48 in. long	- - - - -	4 openings.
30 Gallon	12 in. Diameter x 60 in. long	- - - - -	4 openings.
40 Gallon	14 in. Diameter x 60 in. long	- - - - -	4 openings.
50 Gallon	16 in. Diameter 60 in. long	- - - - -	4 openings.

Prices upon application.

F-6196
HORIZONTAL WITH STEAM INLET AT END.

Above Boilers are made in sizes from 30 to 192 gallons capacity.
Prices upon application.

Galvanized Iron Range Boilers

WITH GALVANIZED IRON STEAM COIL.

We manufacture Boilers as shown above with Galvanized Iron Steam Coil inside to heat the water by steam, especially for use in hotels, factories, public institutions, hospitals, asylums, or in places where a large quantity of hot water is required and steam is used for heating purposes instead of coal or gas.

The above system of hot water heating is adapted for use in large institutions, especially factories where each department has its toilet room and it is often desirable that an independent hot water supply is provided for the wash sinks or lavatories in the metal polishing and buffing departments, etc. In such cases the above system of heating is very satisfactory.

In small Plants where less than 190 gallons of water are required at one time and where steam can be used, the above is the best arrangement and most economical.

All of these Boilers have in addition to the inlet and outlet connections for steam also the regular 1-inch pipe openings for connection to the water back. The Water Back Openings are plugged if steam only is used.

We operate a complete and extensive plant for the manufacture of Range Boilers. The best materials, improved machinery, skilled workmanship and careful attention to every detail in the process of manufacture insures our customers first-class goods. Each Boiler is subjected to a severe test and is thoroughly inspected before shipment and bears our Trade Mark Label (Wolff's Head).

Always state the number of pounds of steam pressure to be used on the coil.

We would also recommend the use of our Extra Heavy Boiler, which will give the best satisfaction.

When ordering give Catalogue number and capacity and specify Wolff's Extra Heavy Boiler.

WOLFF'S BRASS GOODS.

F-6200

"*Wolff's*" No. 0 Fuller Faucet.
